

EzBio Filter

- Double core filtration.
- Great for Garden Pond.
- Great for Prefilter for pumps.

Features and Benefits:

- **Improved pump efficiency:**
 - * Prevents flow reduction to premature clogging.
 - * Improves energy conversion to water flow.
 - * Extends pump lifetime.
- **Highly efficient filtration:**
 - * Multiple pore size and progressive density dramatically reduces clogging.
 - * Depth filtration: large filter volume to capture, store and digest particles.
 - * Large specific area for bio-filtration.
- **Ez install:**
 - * Connects to many types of pumps.
 - * Easily extendable for increased capacity.
- **Ez clean:**
 - * Minimal maintenance, lasts long before cleaning needed.
 - * Simply clean by rinsing with tap water.
- **Ez integrate:**
 - * Ez-Bio can be placed at any distance from pump.
 - * The Ez-Bio can be easily extended with multiple sections to increase filtration capacity.
